

# Online Safety Policy

## Broomfield School

October 2021

# Introduction

Today's pupils are growing up in an increasingly complex world, living their lives seamlessly on and offline. This presents many positive and exciting opportunities but also challenges and risks

At Broomfield School, we aim to equip pupils with the knowledge needed to make the best use of the internet and technology in a safe, considered and respectful way, so they are able to reap the benefits of the online world.

As a Rights Respecting School, we teach about children's rights and how to protect the rights of others. Article 17 of the CRC states – **You have the right to get information that is important to your well-being, from computers and other sources. Adults should make sure that the information you are getting is not harmful, and help you find and understand the information you need'.**

Online safety learning forms an integral part of our Schemes of Work for Computing and also PSHE. We also teach online safety through special events and opportunities such as Internet Safety Day.

## Scope of the Policy

This policy applies to all members of the school community (including staff, students/pupils, volunteers, parents/carers, visitors, community users) who have access to and are users of school digital technology systems, both in and out of the school.

The Education and Inspections Act 2006 empowers Headteachers/Principals to such extent as is reasonable, to regulate the behaviour of students/pupils when they are off the school site and empowers members of staff to impose disciplinary penalties for inappropriate behaviour. This is pertinent to incidents of online-bullying or other online safety incidents covered by this policy, which may take place outside of the school, but is linked to membership of the school. The 2011 Education Act increased these powers with regard to the searching for and of electronic devices and the deletion of data (see appendix for template policy). In the case of both acts, action can only be taken over issues covered by the published Behaviour Policy.

The school will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents/carers of incidents of inappropriate online safety behaviour that take place out of school.

## The school will monitor the impact of the policy using:

- Logs of reported incidents recorded on CPOMS
- Monitoring logs of internet activity (including sites visited)/filtering
- Internal monitoring data for network activity
- Surveys/questionnaires of
  - students/pupils, such as the GUINY survey
  - parents/carers
  - staff

## Roles and Responsibilities

### Governors

Governors are responsible for the approval of the online safety policy and for reviewing the effectiveness of the policy. This will be carried out by the Governors receiving regular information about online safety incidents and monitoring reports. A member of the Governing Body has taken on the role of Online Safety Governor as part of the more general Safeguarding Governor role. The role of the Online Safety Governor will include:

- meetings with the Online Safety Co-ordinator
- regular monitoring of online safety incident logs

- reporting to relevant Governors meetings

## Headteacher and SLT

- The Headteacher has a duty of care for ensuring the safety (including online safety) of members of the school community, though the day to day responsibility for online safety will be delegated to the Online Safety Lead.
- The Headteacher and (at least) another member of the Senior Leadership Team should be aware of the procedures to be followed in the event of a serious online safety allegation being made against a member of staff. (see flow chart on dealing with online safety incidents – included in a later section – “Responding to incidents of misuse” and relevant Local Authority disciplinary procedures).
- The Headteacher and SLT are responsible for ensuring that the Online Safety Lead and other relevant staff receive suitable training to enable them to carry out their online safety roles and to train other colleagues, as relevant.
- The Headteacher and SLT will ensure that there is a system in place to allow for monitoring and support of those in school who carry out the internal online safety monitoring role. This is to provide a safety net and also support to those colleagues who take on important monitoring roles.

## Online Safety Lead

- takes day to day responsibility for online safety issues and has a leading role in establishing and reviewing the school online safety policies/documents
- ensures that all staff are aware of the procedures that need to be followed in the event of an online safety incident taking place.
- provides training and advice for staff
- liaises with school technical staff
- meets regularly with Online Safety/Safeguarding Governor to discuss current issues and next steps.
- attends relevant meetings of Governors

## Network Manager/Technical staff

Those with technical responsibilities are responsible for ensuring:

- that the school's technical infrastructure is secure and is not open to misuse or malicious attack
- that the school meets required online safety technical requirements and any Local Authority online safety guidance that may apply.
- that users may only access the networks and devices through a properly enforced password protection policy
- the filtering policy is applied and updated on a regular basis and that its implementation is not the sole responsibility of any single person.
- that they keep up to date with online safety technical information in order to effectively carry out their online safety role and to inform and update others as relevant
- that the use of the networks/internet/digital technologies is regularly monitored in order that any misuse/attempted misuse can be reported to the Headteacher/SLT/Online Safety Lead for investigation.
- that monitoring software/systems are implemented and updated and secure.

## Teaching and Support Staff

Are responsible for ensuring that:

- they have an up to date awareness of online safety matters and of the current school online safety policy and practices
- they have read, understood and signed the staff acceptable use policy
- they report any suspected misuse or problem to the Headteacher/Principal/Senior Leader/Online Safety Lead for investigation
- all digital communications with students/pupils/parents/carers should be on a professional level and only carried out using official school systems
- online safety issues are embedded in all aspects of the curriculum and other activities
- students/pupils understand and follow the Online Safety Policy and acceptable use policies
- they monitor the use of digital technologies, mobile devices, cameras, etc. in lessons and other school activities (where allowed) and implement current policies with regard to these devices
- in lessons where internet use is pre-planned students/pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches

## Designated Safeguarding Lead/Deputy DSL

Should be trained in online safety issues and be aware of the potential for serious child protection/safeguarding issues to arise from:

- sharing of personal data
- access to illegal/inappropriate materials
- inappropriate on-line contact with adults/strangers
- potential or actual incidents of grooming
- online-bullying

## Students/Pupils:

- are responsible for using the school digital technology systems in accordance with the pupil acceptable use agreement
- need to understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- will be expected to know and understand policies on the use of mobile devices and digital cameras. They should also know and understand policies on the taking/use of images and on online-bullying.
- should understand the importance of adopting good online safety practice when using digital technologies out of school and realise that the school's online safety policy covers their actions out of school, if related to their membership of the school

## Parents/carers

Parents/carers play a crucial role in ensuring that their children understand the need to use the internet/mobile devices in an appropriate way. The school will take every opportunity to help parents understand these issues through parents' evenings, newsletters, posts on ClassDojo, website, and information about national/local online safety campaigns/literature. Parents and carers will be encouraged to support the school in promoting good online safety practice and to follow guidelines on the appropriate use of:

- digital and video images taken at school events
- access to parents' sections of the website, ClassDojo and other online resources, such as Google Classroom
- their children's personal devices in the school (where this is allowed)

# Policy Statements

## Education – Pupils

Whilst regulation and technical solutions are very important, their use must be balanced by educating pupils to take a responsible approach. The education of pupils in online safety/digital literacy is therefore an essential part of the school's online safety provision. Children and young people need the help and support of the school to recognise and avoid online safety risks and build their resilience.

Online safety should be a focus in all areas of the curriculum and staff should reinforce online safety messages across the curriculum. The online safety curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways:

- A planned online safety curriculum will be provided as part of Computing and PHSE lessons and should be regularly revisited
- Key online safety messages should be reinforced as part of a planned programme of assemblies and tutorial/pastoral activities
- Pupils should be taught in all lessons to be critically aware of the materials/content they access on-line and be guided to validate the accuracy of information.
- Pupils should be taught to acknowledge the source of information used and to respect copyright when using material accessed on the internet
- Older pupils should be supported in building resilience to radicalisation by providing a safe environment for debating controversial issues and helping them to understand how they can influence and participate in decision-making.
- Pupils should be helped to understand the need for the pupil acceptable use agreement and encouraged to adopt safe and responsible use both within and outside school.
- Staff should act as good role models in their use of digital technologies, the internet and mobile devices
- in lessons where internet use is pre-planned, it is best practice that pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches.
- Where pupils are allowed to freely search the internet, staff should be vigilant in monitoring the content of the websites the young people visit.
- It is accepted that from time to time, for good educational reasons, students may need to research topics (e.g. racism, drugs, discrimination) that would normally result in internet searches being blocked. In such a situation, staff can request that the Technical Staff (or other relevant designated person) can temporarily remove those sites from the filtered list for the period of study. Any request to do so, should be auditable, with clear reasons for the need.

## Education – Parents/carers

Many parents and carers have only a limited understanding of online safety risks and issues, yet they play an essential role in the education of their children and in the monitoring/regulation of the children's online behaviours. Parents may underestimate how often children and young people come across potentially harmful and inappropriate material on the internet and may be unsure about how to respond.

The school will therefore seek to provide information and awareness to parents and carers through:

- Sharing information and links via ClassDojo
- Parents/carers evenings/sessions, including workshops run by the Adult Learning and Skills Service
- High profile events/campaigns e.g. Safer Internet Day

## Education & Training – Staff

It is essential that all staff receive online safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- Online safety training will be made available to staff. An audit of the online safety training needs of all staff will be carried out regularly.
- All new staff should receive online safety training as part of their induction programme, ensuring that they fully understand the school online safety policy and acceptable use agreements.
- It is expected that some staff may identify online safety as a training need within the performance management process.
- The Online Safety Lead will receive regular updates through attendance at external training events and by reviewing guidance documents released by relevant organisations.
- This online safety policy and its updates will be presented to and discussed by staff in staff/team meetings/training sessions.
- The Online Safety Lead will provide advice/guidance/training to individuals as required.

## Training – Governors

Governors should take part in online safety training/awareness sessions, with particular importance for those who are members of any group involved in technology/online safety/health and safety/safeguarding. This may be offered in a number of ways including the following:

- Attendance at training provided by the Local Authority/National Governors Association/or other relevant organisation.
- Participation in school/training/information sessions for staff or parents

## Technical – infrastructure/equipment, filtering and monitoring

The school will be responsible for ensuring that the school infrastructure/network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. It will also need to ensure that the relevant people named in the above sections will be effective in carrying out their online safety responsibilities:

School technical systems will be managed in ways that ensure that the school meets recommended technical requirements:

- There will be regular reviews and audits of the safety and security of school technical systems
- Servers, wireless systems and cabling must be securely located and physical access restricted
- All users will have clearly defined access rights to school technical systems and devices.
- All users will be provided with a username and secure password by who will keep an up to date record of users and their usernames. Users are responsible for the security of their username and password.
- The “master/administrator” passwords for the school systems, used by the Network Manager (or other person) must also be available to the Headteacher or other nominated senior leader and kept secure
- The network administrator is responsible for ensuring that software licence logs are accurate and up to date and that regular checks are made to reconcile the number of licences purchased against the number of software installations

- Internet access is filtered for all users. Illegal content is filtered by the broadband or filtering provider. Content lists are regularly updated and internet use is logged and regularly monitored. There is a clear process in place to deal with requests for filtering changes

## Use of digital and video images

The development of digital imaging technologies has created significant benefits to learning, allowing staff and pupils instant use of images that they have recorded themselves or downloaded from the internet. However, staff, parents/carers and pupils need to be aware of the risks associated with publishing digital images on the internet. Such images may provide avenues for online-bullying to take place. Digital images may remain available on the internet forever and may cause harm or embarrassment to individuals in the short or longer term. It is common for employers to carry out internet searches for information about potential and existing employees. The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm:

- When using digital images, staff should inform and educate students/pupils about the risks associated with the taking, use, sharing, publication and distribution of images. In particular they should recognise the risks attached to publishing their own images on the internet e.g. on social networking sites.
- Written permission from parents or carers will be obtained before photographs of students/pupils are published on the school website/social media/local
- In accordance with guidance from the Information Commissioner's Office, parents/carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published/made publicly available on social networking sites, nor should parents/carers comment on any activities involving other students/pupils in the digital/video images.
- Staff and volunteers are allowed to take digital/video images to support educational aims, but must follow school/ policies concerning the sharing, distribution and publication of those images. Those images should only be taken on school equipment; the personal equipment of staff should not be used for such purposes.
- Care should be taken when taking digital/video images that students/pupils are appropriately dressed and are not participating in activities that might bring the individuals or the school into disrepute.
- Pupils must not take, use, share, publish or distribute images of others without their permission
- Photographs published on the website, or elsewhere that include pupils will be selected carefully and will comply with good practice guidance on the use of such images.
- Pupils' full names will not be used anywhere on a website or blog, particularly in association with photographs.

## Data Protection

Personal data will be recorded, processed, transferred and made available according to the current data protection legislation.

### The school must ensure that:

- it has a Data Protection Policy.
- it implements the data protection principles and is able to demonstrate that it does so through use of policies, notices and records.
- it has an 'information asset register' in place and knows exactly what personal data it holds, where this data is held, why and which member of staff has responsibility for managing it
- the information asset register records the lawful basis for processing personal data (including, where relevant, how consent was obtained and refreshed). Where special category data is processed, an additional lawful basis will have also been recorded
- it will hold only the minimum personal data necessary to enable it to perform its function and it will not hold it for longer than necessary for the purposes it was collected for. The school should develop and implement a

‘retention policy’ to ensure there are clear and understood policies and routines for the deletion and disposal of data to support this. personal data held must be accurate and up to date where this is necessary for the purpose it is processed for. Have systems in place to identify inaccuracies, such as asking parents to check emergency contact details at suitable intervals

- it provides staff, parents and children with information about how the school looks after their data and what their rights are in a clear Privacy Notice
- data Protection Impact Assessments (DPIA) are carried out where necessary. For example, to ensure protection of personal data when accessed using any remote access solutions, or entering into a relationship with a new supplier (this may also require ensuring that data processing clauses are included in the supply contract or as an addendum)
- it has undertaken appropriate due diligence and has required data processing clauses in contracts in place with any data processors where personal data is processed.
- it understands how to share data lawfully and safely with other relevant data controllers.
- Relevant staff receive data protection training at induction and appropriate refresher training thereafter. Staff undertaking particular data protection functions, such as handling requests under the individual's rights, will receive training appropriate for their function as well as the core training provided to all staff.

**When personal data is stored on any mobile device or removable media the:**

- data must be encrypted and password protected.
- device must be password protected.
- device must be protected by up to date virus and malware checking software
- data must be securely deleted from the device, in line with school policy once it has been transferred or its use is complete.

**Staff must ensure that they:**

- at all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse
- can recognise a possible breach, understand the need for urgency and know who to report it to within the school
- can help data subjects understand their rights and know how to handle a request whether verbal or written. Know who to pass it to in the school
- where personal data is stored or transferred on mobile or other devices (including USBs) these must be encrypted and password protected.
- will not transfer any school personal data to personal devices except as in line with school policy
- access personal data sources and records only on secure password protected computers and other devices, ensuring that they are properly “logged-off” at the end of any session in which they are using personal data

## Social Media - Protecting Professional Identity

All schools and local authorities have a duty of care to provide a safe learning environment for pupils and staff. Schools and local authorities could be held responsible, indirectly for acts of their employees in the course of their employment. Staff members who harass, engage in online bullying, discriminate on the grounds of sex, race or disability or who defame a third party may render the school or local authority liable to the injured party. Reasonable steps to prevent predictable harm must be in place.

The school provides the following measures to ensure reasonable steps are in place to minimise risk of harm to pupils, staff and the school through:

- Ensuring that personal information is not published
- Training is provided including: acceptable use; social media risks; checking of settings; data protection; reporting issues.
- Clear reporting guidance, including responsibilities, procedures and sanctions

School staff should ensure that:

- No reference should be made in social media to pupils, parents/carers or school staff
- They do not engage in online discussion on personal matters relating to members of the school community
- Personal opinions should not be attributed to the school or local authority

### Personal Use:

- Personal communications which do not refer to or impact upon the school are outside the scope of this policy
- Where excessive personal use of social media in school is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken

Policy review date : October 2022

# Appendices

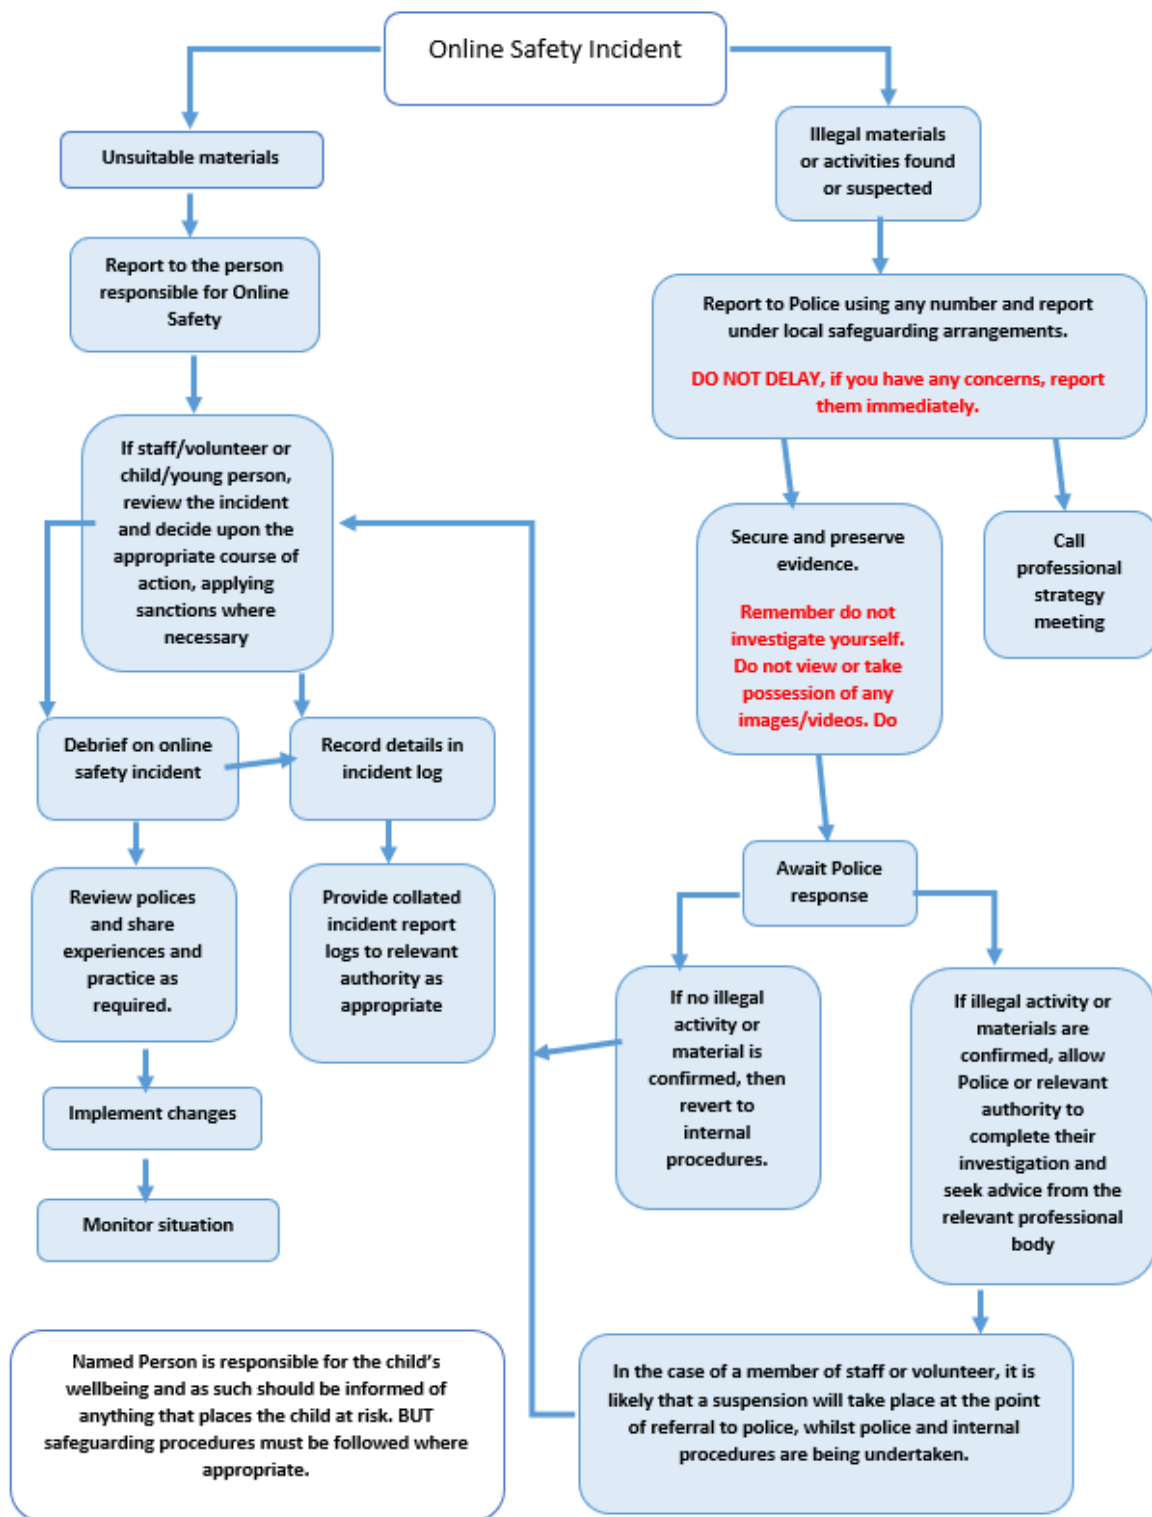

## Student/Pupil Acceptable Use Policy Agreement for pupils

### **This is how we stay safe when we use computers:**

- I will ask a teacher or suitable adult if I want to use the computers/tablets
- I will only use the computer for activities that a teacher, or suitable adult, has allowed me to
- I will only use websites and online resources that my teacher has allowed
- I will take care of computers/tablets and other equipment
- I will ask for help from a teacher or suitable adult if I am not sure what to do or if I think I have done something wrong
- I will tell a teacher or suitable adult straight away if I see something that upsets me on the screen
- I know that if I break the rules I might not be allowed to use a computer/tablet and that the school may contact my parents/carers

This agreement should be shared with all pupils as part of their online safety learning and agreed as a class, so all pupils know the expectations and procedures at Broomfield relating to online safety.

## Glossary of Terms

<b>AUP/AUA</b>	Acceptable Use Policy/Agreement – see templates earlier in this document
<b>CEOP</b>	Child Exploitation and Online Protection Centre (part of National Crime Agency, UK Police, dedicated to protecting children from sexual abuse, providers of the Think U Know programmes.
<b>CPD</b>	Continuous Professional Development
<b>FOSI</b>	Family Online Safety Institute
<b>ICO</b>	Information Commissioners Office
<b>ICT</b>	Information and Communications Technology
<b>INSET</b>	In Service Education and Training
<b>IP address</b>	The label that identifies each computer to other computers using the IP (internet protocol)
<b>ISP</b>	Internet Service Provider
<b>ISPA</b>	Internet Service Providers' Association
<b>IWF</b>	Internet Watch Foundation
<b>LA</b>	Local Authority
<b>LAN</b>	Local Area Network
<b>MAT</b>	Multi Academy Trust
<b>MIS</b>	Management Information System
<b>NEN</b>	National Education Network – works with the Regional Broadband Consortia (e.g. SWGfL) to provide the safe broadband provision to schools across Britain.
<b>Ofcom</b>	Office of Communications (Independent communications sector regulator)
<b>SWGfL</b>	South West Grid for Learning Trust – the Regional Broadband Consortium of SW Local Authorities – is the provider of broadband and other services for schools and other organisations in the SW
<b>TUK</b>	Think U Know – educational online safety programmes for schools, young people and parents.
<b>UKSIC</b>	UK Safer Internet Centre – EU funded centre. Main partners are SWGfL, Childnet and Internet Watch Foundation.
<b>UKCIS</b>	UK Council for Internet Safety
<b>VLE</b>	Virtual Learning Environment (a software system designed to support teaching and learning in an educational setting,
<b>WAP</b>	Wireless Application Protocol

A more comprehensive glossary can be found at the end of the UKCIS [Education for a Connected World Framework](#)
